Eligibility criteria for referral

The checklist below should be used to assess patient eligibility for management by a community service. Where patients are suitable for community services they should be offered a choice of primary care providers. Paper referrals should be created and posted or faxed to the Accredited Primary Care providers detailed above.

Patients who are unsuitable for community services should be referred to their secondary care provider of choice using Choose & Book.

Eligibility Check List for Community Services – On patient assessment, if the answer to any of the questions below is ‘Yes’, the patient should be referred to a secondary care provider of their choice:

	Yes
History of allergy to local anaesthetic	
History of fainting easily	
Patient refusal of local anaesthetic	
Previous scrotal injury	
Large varicocele or hydrocele	
Cryptorchidism	
Inguinal hernia	
Coagulation disorder	

The Nottingham Road Clinic is also available for self-referrals.
