About our service

Our Respiratory Service in Mansfield and Ashfield provides:

Home Oxygen Service

Assessment, support and education for patients who require oxygen therapy to use at home. We promote safe use of oxygen therapy. We treat adults with a variety of long term respiratory conditions, we also see some patients with heart and neurological problems. The Home Oxygen Service is based at Ashfield Community Hospital. Home visits are available, if necessary.

Pulmonary Rehabilitation

Patients are assessed for a six week programme that runs twice weekly. It is group based and provides exercise and education for adults with long term respiratory conditions to help improve their quality of life. Pulmonary Rehabilitation classes are run from both Mansfield and Ashfield Community Hospitals.

Nurse Led Follow Up Clinics

If patients are seen in either Pulmonary Rehabilitation or Oxygen Clinic and require further input they can be referred to our nurse led clinic. Our Respiratory Nurses also provide support for consultant led clinics at Mansfield Community Hospital. Nurse Led clinics are run from both Mansfield and Ashfield Community Hospitals.

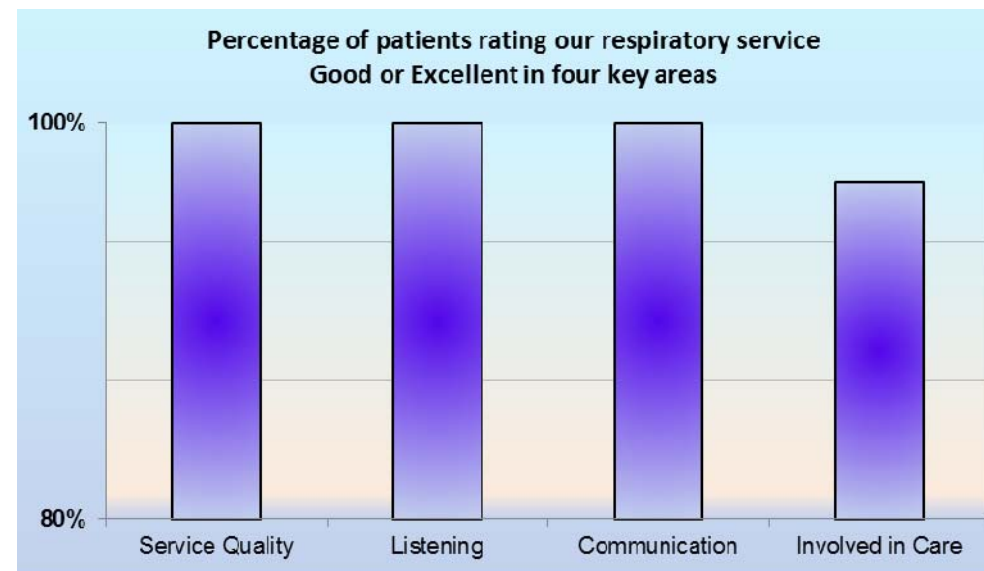

Carers are welcome to attend all clinics. Referrals can be made via your GP, practice nurse, specialist nurse, consultant etc.,

High quality care

We are committed to providing high quality care and treatment and a positive experience for everyone using our services.

- 100% of patients say that the quality of our service is either excellent or good.
- 98% of patients say they would recommend our service.
- Staff are said to be friendly, helpful, caring and professional.

What our patients say about us

*Very nice nurses, who were cheerful, professional and concerned about my care.
Thank you!*

I was made to feel comfortable, safe and cared for.

*Everything was always fully explained to me.
I was listened to and was given enough time to think of things I wanted to ask.*

Physiotherapists showed me how to use oxygen, how to exercise and breathing techniques.

Please note. Statistics and feedback collected via patient feedback forms.
