

New Integrated Sexual Health Service for Mid-Nottinghamshire

'My Sexual Health', a new integrated sexual health service for Mid-Nottinghamshire will launch on 4 April 2016, provided by Sherwood Forest Hospitals NHS Foundation Trust (SFHT) and funded by Nottinghamshire County Council.

Previously, specialist sexual health services for screening, testing and treatment of sexually transmitted infections (STIs) and genital infections were provided in Genitourinary Medicine (GUM) clinics. Contraception services were provided in Contraception and Sexual Health (CaSH) clinics. These will now be available in a single comprehensive integrated service - 'My Sexual Health'.

The SEXions service for young people will continue to be provided across Mid-Nottinghamshire as will specialist services at The Hub for those who are HIV positive.

'My Sexual Health' will operate a Hub and Spoke model:

- Testing and treatment of uncomplicated sexual infections and uncomplicated contraception provision will be available at all integrated sexual health clinics, including both Hub and Spoke sites.
- If more complex conditions or a requirement for specialist care is identified then a specialist appointment at The Hub may be required.
- On Monday to Friday services will be provided at The Hub at King's Mill Hospital and the Spoke sites at various locations across Mid-Nottinghamshire.

Ashfield Health Village	Bull Farm Primary Care Centre	Mansfield Community Hospital
Warsop Primary Care Centre	The Hub Kings' Mill Hospital	Mansfield Woodhouse Health Centre
