

DESMOND

(Diabetes Education Self-Management for Ongoing and Newly Diagnosed)
Evidence based self-management education session for anyone with
Type 2 Diabetes no matter how long diagnosed.

You can now refer to DESMOND via a SystmOne e-referral via the Ardens Communications Template "Orange Arrow"

Details of how to do this are below:

1. Go to the "Referral Directory" tab found under the Ardens Orange Arrow
2. Under the **Diabetes** heading click on DESMOND

3. A new window will open. On this window, select DESMOND from the drop-down menu titled 'Task Recipient' and add any additional information in the lower text box (if they require full days/ half days/ preferred location/ any additional needs/ languages spoken for example)

4. Click 'Ok' and your referral will be sent. This will send the referral (via eDSM record share) straight to the DESMOND admin group to accept/reject and you will be notified once this has been completed by an automatic task back. You will need to action this task that you receive back.
